

BEAVER VALLEY
MONTESSORI
SCHOOL

A woman with dark hair, wearing a red patterned top and a necklace, is smiling and looking down at a green object she is holding. She is surrounded by several young children in a classroom or activity room. One child in the foreground is wearing a yellow and orange shirt with the text 'SEA HARBOR SEA VOYAGE'. Another child in an orange shirt is looking at the green object. The background shows shelves with various items, including a wicker basket and some containers.

CREATING A PASSION FOR LIFELONG LEARNING

The Beaver Valley Montessori School

is a state licensed, nonprofit preschool for 3, 4, and 5 year olds serving Beaver County. Our school provides a unique approach to education, embracing the “Entrepreneurial Spirit” that we share with your children every day.

The Montessori program offers consciously designed experiences that cultivate the child’s sense of independence, self respect, love of peace, passion for self chosen work done well, and the ability to honor and celebrate the individual spirit. Our program seeks to promote a global perspective and a respect and understanding of cultural diversity.

Starting with a 3 year program, Montessori teachers lead children to ask questions, explore and discover in an atmosphere of independence within a community. The foundation of Montessori education is about ***creating a passion for lifelong learning*** by allowing children to explore topics that capture their interests and to share their discoveries with classmates.

“WITHIN IN THE
CHILD LIES THE
FATE OF THE
FUTURE”

- Maria Montessori

A group of children in a classroom are holding hands in a circle on a colorful rug. The children are of various ages and are dressed in casual clothing. The classroom background includes a white refrigerator, a wooden table with chairs, and shelves with various items. The text is overlaid on the image in white and yellow.

**“ EDUCATION IS A
NATURAL PROCESS
CARRIED OUT BY THE
CHILD AND IS NOT
ACQUIRED BY
LISTENING TO WORDS
BUT BY EXPERIENCES
IN THE ENVIRONMENT ”**

- Maria Montessori

THE MONTESSORI DIFFERENCE:

Emphasis on Education & Success for all Students in a Nurturing Environment

EDUCATION

Children receive a strong foundation that creates a passion for lifelong learning, the ability to focus and a sense of self responsibility and community.

CLASSROOM

Through individual works and small groups, each child is encouraged to be curious, learn and discover.

METHOD

Montessori education encourages children to explore works that capture their interests and provides an opportunity to share these discoveries within their classroom community.

*We have a
unique classroom
and thats what
sets us apart.*

CLASSROOM FOCUS:

- GRACE, COURTESY AND MANNERS
- FINE AND GROSS MOTOR SKILL DEVELOPMENT
- PHONETIC READING AND SCIENCE
- EARLY MATH CONCEPTS AND INTRODUCTION TO DECIMAL SYSTEM
- GEOGRAPHY AND FOREIGN LANGUAGE
- ART AND CREATIVE THINKING
- RESPONSIBILITY FOR PERSONAL NEEDS
- CRITICAL THINKING AND THE ABILITY TO FOCUS

Extended Day

Between the ages of four and five, children enter the next stage of development, "The Age of Reason." At this time there is a natural progression for morning children to enter the extended day program. Having explored and used the Montessori materials for at least one year in the primary program, the extended day child is beginning to explore abstract ideas and is ready to receive higher level lessons. The extended day child's work cycle includes lunch and recess, library days and outdoor exploration when weather permits.

OPEN TO STUDENTS 4.1+ YEARS OLD

Hear what parents are saying:

“The logic and overall math abilities that have developed from such a creative and explorative curriculum are irreplaceable. We are confident that the understanding our daughter has of current math concepts directly correlates with the development provided through her Montessori education.”

Susan Mamone - Parent of 2005 graduate

“The power of the third year of Montessori is where it came full circle for our daughter. She became a leader and mentor for her younger classmates and now she is an active participant in the kindergarten classroom as well as a kind and caring friend to all.”

Jacy Bittner - Parent of present and past student, now in Kindergarten

“My daughter is confident and conscious of the world around her. It's a great foundation for budding entrepreneurs! The environment is so well designed it allows for individual creativity and spontaneity.”

Amy Fazio - Parent of past preschooler now in First Grade

BEAVER VALLEY MONTESSORI SCHOOL

The Beaver Valley Montessori School is licensed by the Pennsylvania Department of Education. To set up an observation or to place your child's name on our waiting list, we invite you to call the school at 724-775-6333. We do maintain a waiting list for future enrollment, and will list children on it as young as six months of age.

The unique three year Montessori program can accept students beginning at 2.7 years of age and creates a strong foundation of learning that will set the stage for challenges they may encounter later in school and in life. We have relationships with a respected day care facility and offer tuition assistance as needed.

Montessori philosophy states that every child is born with far greater ability than is usually developed. We are committed to nurturing that ability. We provide an ideal learning environment for this world-acclaimed approach to education.

**Join us in giving your child a foundation for learning that
will support him/her throughout life.**

We look forward to hearing from you!
